Example

Note: Activities must clearly be designed and able to help the group to realize its objectives. You should name the months in sequence (e.g. Sep, Oct, Nov, etc.) and indicate the month the activity is taking place, remembering Month 1 the first month of the project. This facilitates better monitoring of the project especially if that particular activity has to occur in a given month e.g. a project to train schoolchildren during the vacation must start and end at particular times.
